

**NO. 1/2003**

Jerzy Piłat - In memory of Professor Maria Kalabińska

Beata Gajewska, Stanisław Michał Czerniak - Pedestrian route seen by passers-by, also by the handicapped

Maciej Kruszyna, Antoni Szydło - Modelling of urban transport traffic flow on the separated lane between the junctions

Mieczysław Rybak, Marian Skawiński - Calculation of crossing ability of 14-axles lorries over bridges designed according to various standards

Elżbieta Walerian, Ryszard Janczur, Mieczysław Czechowicz - Effectiveness of acoustical screens against traffic noise in urban areas

- [Abstracts of articles](#)

**NO. 2/2003**

Zbigniew Giergiczny - Principles for classification of cements and their properties according to European Standards

Czesław Machelski, Grzegorz Antoniszyn - Internal forces in soil-steel bridge structures

Jerzy Odorowicz - Analysis of critical and supercritical state of compressed prismatic beam-columns of large slenderness

Grzegorz Prokopski - Changes of mechanical properties of ordinary and high performance concrete between 7-th and 90-th day of curing

- [Abstracts of articles](#)

**NO. 3/2003**

Leszek Rafalski - In memory of Professor Mieczysław Rybak

Juliusz Cieśla - Profile of Professor Mieczysław Rybak

Damian Bęben, Zbigniew Mańko - Static tests on road bridge made of steel corrugated plates

Andrzej M. Brandt - Material structures of cement - based composites

Marian Klasztorny - Dynamic analysis of composite beam bridges along Polish Highspeed Railway Line "CMK" at conditions of increased train velocities of 160÷250 km/h

Piotr Olszerek, Marek Łagoda - Bridge construction monitoring during assembling

- [Abstracts of articles](#)

**NO. 4/2003**

Ewa Błazik-Borowa, Jerzy Podgórski, Tomasz Lipecki - Analysis of aerodynamic coefficients for bridge pylons using CFD methods

Sławomir Drewnowski, Witold Paleczek - Optimization of contour of concrete pavement slabs

Cezary Kraszewski, Jan Pachowski - Utilization of post - refinery oil sludge for soil stabilisation in road construction. Part I - Laboratory tests

Agnieszka Żurawicka - Thin bonded concrete overlays for strengthening of road pavements. Part I
