

NO. 1/2002

Leszek Rafalski - Note from the publisher

Dariusz Alterman - Design studies of the Castle Bridge over Wisłok River in Rzeszów using a CAD system

Mirosław Graczyk, Józef Rafa - The structural model of pavement for analysis of wave phenomena in quasidynamic formulation

Czesław Machelski - Service load capacity of reinforced concrete rebuilt bridges

Jan Pachowski - Development of power by-products formation technology, their characteristics and possibilities of application in road construction technologies

Piotr Radziszewski, Maria Kalabińska, Jerzy Piłat - Estimation of road bitumen cohesion on the basis of ductility test in temperature function

- [Abstracts of articles](#)

NO. 2/2002

Władysław Gardziejczyk - Texture of road surfaces - methods of measurement, parameters evaluation and its influence on the tire/road noise

Stanisław Pisarczyk - Laboratory tests of suitability of synthetic and rubber wastes for the soils used for road embankments

Wacław Szcześniak, Magdalena Ataman, Artur Zbiciak - Vibration of elastic beam forced by linear one-mass moving oscillator

Adam Wysokowski, Aneta Pryga - Field investigation of the degree of corrosion of beams in steel bridges

Dariusz Załocha, Janusz Kasperkiewicz - Image analysis in evaluation of air-voids structure in air entrained concrete

Krzysztof Żółtowski - Static and dynamic behaviour of cable stayed pedestrian bridge in relation to different type of stay cables

- [Abstracts of articles](#)

NO. 3/2002

Michał A. Glinicki - Evaluation and design of fibre reinforced concrete using the equivalent flexural strength

Władysław Łakota, Wojciech Tomaka - Method of stress estimation in elements of a steel truss bridge

Czesław Machelski, Krzysztof Sadowski - Safety analysis of cantilever bridge span in respect to cracking

Andrzej S. Nowak, Aleksander Szwed - Evaluation of existing bridges using American procedure of field testing

- [Abstracts of articles](#)

NO. 4/2002

Andrzej Flaga, Jerzy Podgórski, Ewa Błazik-Borowa, Grzegorz Bosak, Jarosław Bęc - Aerodynamical analysis of the Third Millenium John Paul II cable-stayed bridge in Gdańsk
Zygmunt Jamroży - The problem of filling cables in prestressing tendons

Maria Kalabińska, Jerzy Piłat, Piotr Radziszewski - Influence of short and long term ageing process on properties of bitumens produced in Poland

Stefan Sz waj - Influence of rheological properties of soils upon their machine treatment
