

**NO. 1/2004**

Adam M. Glinicki, Michał A. Glinicki, Ireneusz Mikulicki – Evaluation of air-entrainment in concrete roads and parking pavements

Cezary Kraszewski, Jan Pachowski – Utilization of post - refinery oil sludge for soil stabilisation in road construction. Part II. Trial sections tests

Grażyna Łagoda, Marek Łagoda – Aesthetic aspect of the shape of bridge structures abstract

Izabela Marczevska, Włodzimierz Sosnowski – General shape design of the bridge structure using topology optimalization methods

Adam M. Glinicki, Michał A. Glinicki, Ireneusz Mikulicki – Evaluation of air-entrainment in concrete roads and parking pavements

Cezary Kraszewski, Jan Pachowski – Utilization of post - refinery oil sludge for soil stabilisation in road construction. Part II. Trial sections tests

Grażyna Łagoda, Marek Łagoda – Aesthetic aspect of the shape of bridge structures abstract

Izabela Marczevska, Włodzimierz Sosnowski – General shape design of the bridge structure using topology optimalization methods

- [Abstracts of articles](#)

**NO. 2/2004**

Damian Bęben, Zbigniew Mańko – Experimental research on steel shell of road bridge during backfilling

Krzysztof Gasz, Maciej Kruszyna – Analyses of pedestrian entry - process to pedestrians crossing

Joanna Stefanek, Wiesław Szumierz – Model of bridge interaction with a continuous rail track subjected to temperature changes

Dariusz Sybilski – Evaluation of low temperature properties of bituminous binders and asphalt mixtures

- [Abstracts of articles](#)

**NO. 3/2004**

Kazimierz Flaga - Personal impressions of my meetings with Pope John Paul II (invited paper)

Zbigniew Cywiński - On the Tczew „record” dimension among the Polish truss bridges of large spans

Czesław Machelski, Robert Toczkiwicz - Flexibility of a steel girder connection with a slab in composite bridges

Wojciech Radomski – Conditions for scientific development in civil engineering. Discussion paper

Discussions:

Stanisław M. Wierzbicki – Development of civil engineering or building engineering

Witold Wołowicki – Some remarks on the paper by Prof. W. Radomski

- [Abstracts of articles](#)

**NO. 4/2004**

Piotr Jaskuła – Deteriorating effects of water and frost on asphalt mixes – state of the art

Grzegorz Prokopski – Effect of coarse aggregate type on mechanical properties of concretes

Henryk Zobel, Magdalena Kruk, Dariusz Sobala – Bearing systems for skew bridges

Henryk Zobel, Magdalena Kruk, Dariusz Sobala – Bearing systems for curved in plane bridges
