

No. 1/2015

The printed copy of the quarterly journal is the primary one.

- [Full text \(pdf\)](#)

Bartłomiej Krawczyk, Piotr Mackiewicz – Impact of repetitive loading on subgrade parameters derived from light weight deflectometer test

- [Abstract](#)

Piotr Mackiewicz, Bartłomiej Krawczyk – Influence of loading time on subgrade parameters derived from VSS static plate test

- [Abstract](#)

Roman Nagórski, Krzysztof Błażejowski, Magdalena Nagórska – Comparative analysis of deflections and strains of two road pavements with high traffic load

- [Abstract](#)

Michał Sarnowski – Rheological properties of road bitumen binders modified with SBS polymer and polyphosphoric acid

- [Abstract](#)

Izabela Wójcik-Grząba, Lesław Kwaśniewski – Verification of the hemispherical finite element model of elastic space

- [Abstract](#)

No. 2/2015

The printed copy of the quarterly journal is the primary one.

- [Full text \(pdf\)](#)

Marcin Błaszczak, Karol J. Kowalski, Jan Król – Friction coefficient, texture depth and tyre/road noise evaluation method by analysis of tyre print image

- [Abstract](#)

Mirosław Graczyk, Artur Zbiciak, Kazimierz Józefiak – Design of airport pavements with use of analytical methods and FEM

- [Abstract](#)

Roman Nagórski, Krzysztof Błażejowski, Magdalena Nagórska – Comparative analysis of deflections and strains of two road pavements with high traffic load

- [Abstract](#)

Agata Jażdżik-Osmólska – Pandora - valuation method of social costs of road accidents in Poland

- [Abstract](#)

Bartłomiej Krawczyk, Piotr Mackiewicz, Antoni Szydło – Influence analysis of counterweight type used in static plate test on identified parameters of pavement courses and subgrade

- [Abstract](#)

No. 3/2015

The electronic copy of the quarterly journal is the primary one.

- [Full text \(pdf\)](#)

Adam Zofka, Dominika Maliszewska, Maciej Maliszewski, Jacek Boratyński – Application of FTIR ATR method to examine the polymer content in the modified bitumen and to assess susceptibility of bitumen to ageing

- [Abstract](#)

Piotr Radziszewski, Jerzy Piłat, Michał Sarnowski, Karol J. Kowalski, Jan B. Król – Influence of high temperature on properties of materials used in bridge asphalt pavement structures

- [Abstract](#)

Ryszard J. Grabowski – Ellipse offset curves in the formation of turbo-roundabouts

- [Abstract](#)

Leszek Korusiewicz – Testing of a large-span soil-shell structure without stiffeners during backfilling process

- [Abstract](#)

Jakub Zawieska – Analysis of external costs of transport within the scope of emissions of air pollution and noise

- [Abstract](#)
